

1. KLOVE Radio station is not only an inspiration to my family (Children and grandchildren) but it serves our entire community by announcing upcoming events such as concerts, revivals and vacation Bible school.

2. By changing over to LPFM broadcaster you are removing KLOVE and replacing it with programming which will broadcast music and programs which we do not want our children and grandchildren listening to. Music with obscenities, sex, drugs and alcohol in the words. This is not what we want for our community. Young people of today are already faced with too many choices without having things blast at them from the radio in their rooms and cars.

3. Our community needs at least one good Christian broadcasting station, and KLOVE is the best there is. We are so lucky to have it in our area. It has changed the lives of so many, and it is supported by the people in this community. Please do not take this away from us. Our financial support (It is completely listener supported) demonstrates what KLOVE means to us. I ask that you reconsider before taking them off the air by this change.

4. Who am I? I am an American...a taxpayer...a voter...a mother...a grandmother...a concerned citizen....a Christian, and I am asking that you allow me to listen to the music I so greatly enjoy.
